TORY SHEEP HAIL... FOUR YEARS OF FAILURE!

DON'T VOTE FOR BETRAYAL...

MARGARET Thatcher's only claim to fame is the Falklands operation — but the claim is an impudent fraud. The victory was achieved by our superb Servicemen. Their valour was only necessary because her government's bungling induced the Argentines to invade.

Our dead Servicemen were hardly in their graves before she was defending British bank loans to Argentina!

Before the last election she sedulously cultivated the belief that she would clamp down on Immigration. **Today Immigrants still pour in by the score thousand!**

She promised "Law and order", **but her government's reaction to Black riots was "positive discrimination"!**

She promised a "just settlement" in Rhodesia. **Today 'Zimbabwe' is a Marxist one-party tribal dictatorship!**

Above all, she promised to get Britain back to work. **Since then unemployment has doubled to more than three million!**

Margaret Thatcher's term of office has been distinguished only by betrayal and failure. **Don't vote for her again . . .**

...VOTE NATIONAL FRONT!

Aliens still flood in...

PERHAPS the biggest publicity boost Mrs. Thatcher won before the last General Election followed a TV interview in which she said:

"I sympathise with the fears of those who feel Britain is being swamped."

This and similar statements about Immigration, and her use of emotive words such as "swamped", was calculated to give the impression that she intended severely to restrict Immigration.

This impression undoubtedly contributed to her election victory. But the hopes of naive anti-Immigration voters were soon dashed.

Within two weeks of her election Mrs. Thatcher agreed to flood Britain with 12,000 Vietnamese 'Boat People'.

Since then the influx of the 'usual' Afro-Asians has continued unabated.

Last December Mrs. Thatcher led a majority of Tory MPs, plus Labour, Liberals and SDP members to vote to allow Immigrants to import their fiancees.

Her government also stepped up Race Relations Act prosecutions against genuine anti-Immigration campaigners such as Joe Pearce, former editor of *Bulldog*.

Jobs exported–Unemployment imported

THOSE who have big money should have the freedom to use it as they like, regardless of the national interest.

This is the 'philosophy' which is at the selfish heart of Mrs. Thatcher's Conservative policies which have led to entire industries in Britain closing down and to more than three million people being thrown on the dole.

One of Mrs. Thatcher's first acts upon coming to power was to abolish all exchange control regulations.

This means that Capitalists who have made profits from the sweat of British workers can now invest those profits overseas where cheap labour — and hence enormous profits — are available.

The result of this is that British capital is being used to finance the development of foreign industries whose productions will compete with the products of British industries on world markets.

Not only that. The products of foreign industries are often so cheap (on account of 'coolie' labour and/or state subsidisation) that they penetrate Britain's home market as well.

Mrs. Thatcher does nothing to protect British industry as she is in favour of world free trade. She says this will force British industry to become "more efficient".

She hopes the British people will become so frightened of unemployment that they will accept such big cuts in their standard of living that Capitalists will find the unlimited profits they are seeking as readily in Britain as anywhere else.

Mrs. Thatcher's internationalist economic and industrial policies amount to treason.

Britain's unsafe streets

ENOCH Powell was sneered at by his then Conservative colleagues — and eventually hounded out of the Tory Party — because he warned in 1968 that if Immigration continued:

"The Tiber would foam with much blood!"

With the Black riots in St. Paul's, Bristol, in April 1980 and the repeat riots in Brixton, Toxteth and many other multi-racial cities in April 1981, Mr. Powell's warnings were vindicated.

One of the key election promises of Mrs. Thatcher was to restore law and order. She has failed in this, and not just in the matter of race riots.

Recent official Police figures show that more than 70 per cent of the Muggers are Black and more than 70 per cent of their victims are White.

In view of the fact that even in the most densely Black-populated areas Blacks do not constitute more than one third of the population, these figures indicate that Black criminal gangs are making **racial war** on the White community.

While Whites predominate in other areas of crime, so far as violent street crime is concerned the problem can only be substantially solved by **deporting alien muggers.**

But the Tories funk this obvious remedy — that is why our streets are unsafe.

...and get 'Positive Discrimination'

THANKS to continuing Immigration and the high Immigrant birthrate, the "minority ethnic" vote is becoming decisive in an ever-increasing number of constituencies.

Because of this and the terror which the Black riots of 1980 and 1981 struck into the hearts of multi-racialist politicians, the Tory government has been in competition with Labour councils to give Immigrants "positive discrimination".

This means spending more and more of your taxes and rates on helping Immigrants to jump the queue for jobs and housing, and to provide Immigrant communities with special welfare and entertainment facilities.

Mrs. Thatcher even appointed a special Minister (Sir George Young) to preside over this "Bribes for the Blacks" gravy train!

Is this what our forefathers fought and died for?

Welfare services are crumbling

"A RETURN to Victorian values" is Mrs. Thatcher's latest description of her social policies.

In view of the attacks which her government has made on the National Health Service and other welfare agencies, it would appear that she also favours a return to Victorian social conditions.

Hospitals which are needed are closed. Hospitals requiring modernisation are left as slums. The unemployment pay of people jobless through no fault of their own has not kept up with inflation.

Cuts in the rates support grants to local Councils has forced a reduction in Day Centres and other old folks' welfare services.

The only people to have benefitted from this Tory government are the super-rich.

SIKH TURBAN CASE A CAUSE FOR REJOICING

NATIONALISTS should view with satisfaction the recent House of Lords ruling that a private school headmaster contravened the Race Relations Act by refusing to enroll a Sikh boy whose parents insisted he wear his turban rather than the school cap.

The villain of the case was not the Sikh boy but the headmaster who declared the decision was intended to promote racial integration at his school and that he had enrolled other Sikh boys who agreed to wear the school cap.

The Sikhs wear their turbans for the same reason that Orthodox Jews wear yarmulkas, beards and sidelocks: to make them feel separate and different from other people and thereby to erect barriers against assimilation.

By maintaining such barriers in our society they signal that they reject us. That is fine. We reject them.

The basis for the Lords' ruling – that the Sikhs are a race and, as such, are "protected" by the Race Act – was, of course, absurd. Sikhism is a religion, not a race. But the more absurdities that are perpetrated in the name of the Race Act, the better.

Of course the decision was another example of an Immigrant group being accorded special privileges – but this can only do harm to "good community relations". That, surely, is a reason for rejoicing.

NF News seeks to persuade its readers to feel angry about the evils of multi-racialism and to direct their anger solely at the corrupt politicians who created a racial problem in Britain, and not to the Immigrant people in general. "Racialism" is NOT unlawful – only "racial hatred".

OUR THREE POINT PLAN FOR FULL EMPLOYMENT

JOE PEARCE contributes the 5th article in our NF Manifesto series.

THERE can be no doubt that the problem of unemployment will be a major issue in the forthcoming General Election. For this reason, it is crucial that the NF makes its policies towards solving unemployment a key element of its election manifesto.

In fact, we must not only show that the NF has the solution to unemployment, we must stress that we are the **only** political party in Britain which does have a solution.

OLD GANG FAILED

The old gang parties have failed to solve the problem of unemployment in the past and they are totally incapable of solving it in the future.

The first National Front policy which distinguishes us from the Establishment parties is our belief that continued Immigration has considerably aggravated the unemployment problem.

The NF has never claimed that Immigration is the root cause of unemployment in Britain, but who can deny that the presence of millions of Immigrants has added to the problem? White workers find themselves in direct competition with Blacks for an ever-diminishing number of jobs.

REPATRIATION

Furthermore, they often find that they are severely handicapped in their efforts to find these jobs because of "positive discrimination" schemes which put the Blacks first.

Once the National Front's repatriation policy is implemented many jobs which are currently being done by Blacks will become available for the employment of British workers.

However, the National Front's most important policy as regards unemployment does not concern immigrants at all, but is to do with the debt finance system which is at the root of so many economic and social problems.

This system of debt finance involves the creation of credit by the banks and the issue of that credit into circulation as an interest bearing debt.

This in turn means that Britain's industry is up to its eyes in debt to the banks.

Much of the profit made by industry is being used to pay back interest on these debts and consequently the banks are constantly sucking hard-earned wealth out of the economy.

This draining of Britain's economic lifeblood by the banks is probably the biggest single factor in the decline of British industry. It has probably caused more bankruptcies and more unemployment than any other pestilence currently plaguing Britain's ailing economy.

Yet all of the Establishment parties adhere to this debt finance system and none of them questions the right of the banks to suck British industry dry.

The National Front, on the other hand, is the only party which is fully committed to breaking this system.

NATIONALISE BANKS

The NF is the only party which demands that **all** banks must be nationalised and that the right to issue credit into the economy must become the sole prerogative of the Government.

This credit would then be spent into the economy **interest free**, not be lent into circulation as an interest bearing debt.

Once the burden of debt has been lifted from the shoulders of industry vast amounts of funds would be available for the creation of new jobs.

The third National Front policy which distinguishes us from the Establishment parties is our advocacy of widespread economic protectionism.

Unlike the Labour Party which supports so-called "selective" import controls, the NF demands that **all** imports of manufactured goods which could be produced in Britain must be stopped.

This policy would lead to a fully protected home market for goods produced in Britain and would lead to the creation of thousands of new jobs.

Such a policy would put an end to the destruction of British industries which can't compete with the cheap foreign imports which are flooding into Britain.

BAN IMPORTS

It would also lead to the creation of new industries and to the recreation of old industries which have already been destroyed by foreign competition.

All in all, the National Front offers a secure and healthy future for Britain's army of unemployed workers, whilst all the old gang parties can offer is more misery and deprivation.

TORY GREED SCUPPERS MERCHANT FLEET

IF BRITAIN needed to mobilise another Task Force such as that sent to the Falklands last year she could not do so because the Tory Government is allowing our merchant fleet to be scuppered.

Since the Tories took office in 1979 the merchant fleet has shrunk by 36 per cent. More than 500 ships have been sold abroad and are now in competition with what remains of our fleet.

Ian Sproat

Despite fears that a further 300 ships could be lost by 1985, Shipping Minister Ian Sproat has refused to help the merchant fleet in any way.

He told the House of Commons on 24th March that the fleet could become more profitable by "cutting crew costs by laying off seamen and reducing safety standards"!

This is hardly sound thinking for an industry where there are already a high number of accidents and deaths.

The government's refusal to help is the last straw for an industry that has been exploited both by the shipowners and the National Union of Seamen.

NUS boss Jim Slater (left) should explain to unemployed British sailors why the union took bribes from shipowners to allow the employment of Asians on British ships.

At a time when there are thousands of British seamen on the dole, more than 5,500 Asians are employed on British ships.

For the last ten years the NUS has accepted a bribe from shipowners of £30 per head for each Asian who is allowed to work on a British ship at one-quarter of the wage paid to British seamen.

The massive profits made by the shipowners from this corrupt system have not been re-invested in the British shipping industry.

Owners have been selling out completely or registering their vessels under 'flags of convenience'.

Apart from putting British seamen on the dole, the destruction of the Merchant Navy has serious defence implications, for in time of war the fleet has the dual role of providing supplies and troop transportation.

The destruction of the fleet has reached the stage that if Britain became involved in another war she would have to beg foreign owners to hire their ships.

They might not wish to take the risk, or their governments might forbid it.

Britain only survived the naval blockades of the last two wars thanks to the Merchant Navy. The Tories are sacrificing Britain's safety to their god of short-term private profit.

TOP ZIONIST APPOINTED B.B.C. BOSS

WITH the appointment of Stuart Young as Chairman of the BBC by Margaret Thatcher, Zionist-Jewry has achieved a near stranglehold over Britain's broadcasting media.

Stuart Young

Mr. Young joins the Isaacs, the Bernsteins, the Grades, the Foxes and other Zionist-Jews who comprise the media's ruling elite. When his appointment was announced in March he was quoted as saying: "I do not have strong political views."

Students of Zionist-Jewry find this hard to believe, in view of the posts which Mr. Young holds – or held until recently:

- **Appeals Treasurer of the Board of Deputies of British Jews.**
- Chairman of the Central Council for Jewish Social Services.
- A Governor of Tel-Aviv University.
- A Governor of Wolfson College, Cambridge.
- A Member of the British Overseas Trade Group or Israel.

Posts such as these are only given to devotees of the highly political cause of Zionism.

Stuart Young's brother, David, was last year appointed by Tory Employment Minister Norman Tebbitt to head the Manpower Services Commission.

David Young is a supporter of the Lubavitch Foundation, a sinister Jewish sect which teaches that non-Jews only have "animal souls".

Like his brother, Stuart Young is a personal friend of Margaret Thatcher and is active on behalf of the Tory Party in Finchley.

In addition to running his own accountancy firm, he is on the boards of British Caledonian (perhaps on account of his Scottish-sounding name) and Tesco supermarkets (founded by Jack Cohen).

Police can't beat crime by stealing our freedom

ALL responsible citizens want to see our streets safe. Everybody – except criminals – want to see the Police win the war against crime.

But the most treasured possession of the British people is their heritage of freedom.

We cannot allow anybody to steal that from us – even the Police acting in the name of "Law and Order".

Law and order without freedom is not the attribute of a society in which citizens are safe, but the hallmark of a tyranny.

This is what Winston Churchill meant when, in comparing the public order situation in Britain with that in the Soviet Union, he said:

"The public order that is maintained in the Soviet Union is the peace that reigns at the mouth of a tomb!"

At the present time the Tory Government is trying to bulldoze through Parliament a "Police and Criminal Evidence Bill".

Among the outrageous powers which this Bill proposes to give the Police among its 78 clauses are:

OUTRAGEOUS

- Detention of suspects for questioning for up to four days without charge or Magistrate's warrant.
- Search under warrant of the homes and business premises of peole **not** suspected of committing an offence.
- Seizure of evidence of **any** offence during a search even if not related to the offence for which the warrant was issued.
- Detention and search on the streets of anybody considered to be "suspicious".
- Establishment of road blocks for random searches of vehicles for certain purposes for indefinite periods.
- Compulsory fingerprinting of persons charged with criminal offences, which fingerprints will remain on national Police records.
- Compulsory intimate body searches and taking body samples from detained suspects.
- Denial of solicitors' access to their detained clients for up to 36 hours.

The Bill originally proposed Police powers to seize the confidential records of doctors, clergymen, journalists and social workers, but Home Secretary William Whitelaw dropped this in the face of protests from powerful pressure groups.

Even so, parts of this Bill would give the Police powers which would put them on a par with the Soviet KGB.

The disappointing figures produced by the Police in their annual 'clear-up' statistics certainly suggest that the Police do need some extra powers in particular areas of crime fighting.

CORRUPT ELEMENTS

But those statistics may also indicate a need for the Police to improve and re-organise their own operations and to purge the corrupt elements which flourish within their own ranks.

The frustration of the 'Operation Countryman' investigation into top-level corruption within the Metropolitan Police did little to encourage public confidence in Police integrity.

Yet the alleged "safeguards" against misuse of the powers proposed in the Police and Criminal Evidence Bill can only work if the Police apply them not just in accordance with the letter of the law, but its spirit.

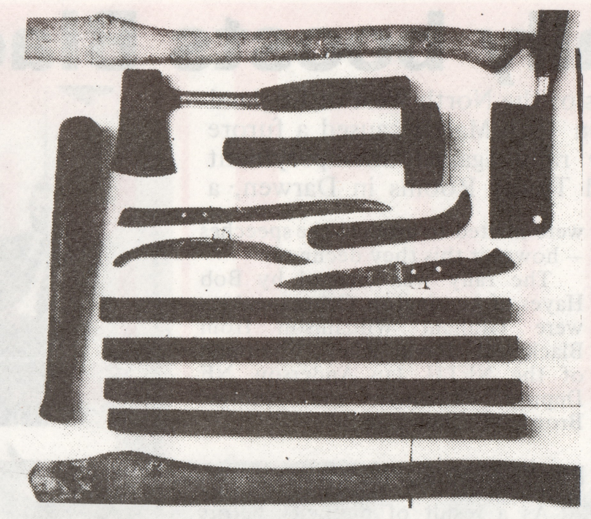
With the current procedure for complaints against the Police resulting in only 100 complaints being upheld of the 9,000 made during 1981, the public's willingness to trust the Police is at a low ebb.

The powers which this proposed new law advocates, working in tandem with the Race Relations Act, would mean that State harassment of patriots would become outright persecution.

The Bill must be opposed.

RACE WAR!

BRITAIN'S STREETS BECOME DARK AGE BATTLEGROUNDS



THIS was the horrific arsenal of weapons seized from Black gangs by the Police in Preston on 9th January. An increasing number of White youths feel compelled to mobilise themselves into White Defence squads.

A PREDICTABLE by-product of the Brixton and Toxteth riots is a growing tendency of White youngsters all over Britain to mobilise themselves to fight back against the Black gangs which have intimidated the adult White population.

During the last 12 months numerous racial clashes – some resulting in serious injuries to the Police – have taken place. These are just a few examples:

- **Bristol, 30/1/82:** 40 Blacks who set out to attack a rival White gang failed to find them. In their frustration they turned on PC Ian Bennett.

They threw bricks and bottles at him which knocked him down, then they struck him with a hammer. PC Bennett suffered a fractured skull and brain damage.

- **High Wycombe, 22/8/82:** 33 youths were arrested after 8 people were injured during clashes between the town's Black and White youths.
- **Slough, 27/11/82:** Fighting spilled onto the streets as a gang of Black youths clashed with Whites leaving a student disco at Slough College.
- **Halifax, 5/1/83:** 40 White and Asian youths fought each other with iron bars, bricks and bottles before being dispersed by the Police.

BABY VICTIM

TWO Black muggers repeatedly picked up this baby, Gemma McCabe, in her pushchair and dropped it on the pavement.

BARBARIC

In a bid to neutralise the bad publicity for the Blacks caused by the 1981 and 1982 Black riots, the media has played up so-called "racial attacks" by Whites on Blacks.

These reports, and a Home Office report, played down sustained and barbaric racial attacks by Blacks on Whites, such as:

- **Brixton, 17/12/82:** A White family were forced to flee their home because of racial harassment from a 20 strong Black gang.
- **Hackney, 4/3/83:** An elderly White man was beaten unconscious by 5 Blacks. He was then tied to his wife while their home was ransacked.
- **Luton, 12/3/83:** A mother and her baby were attacked by 2 Blacks.

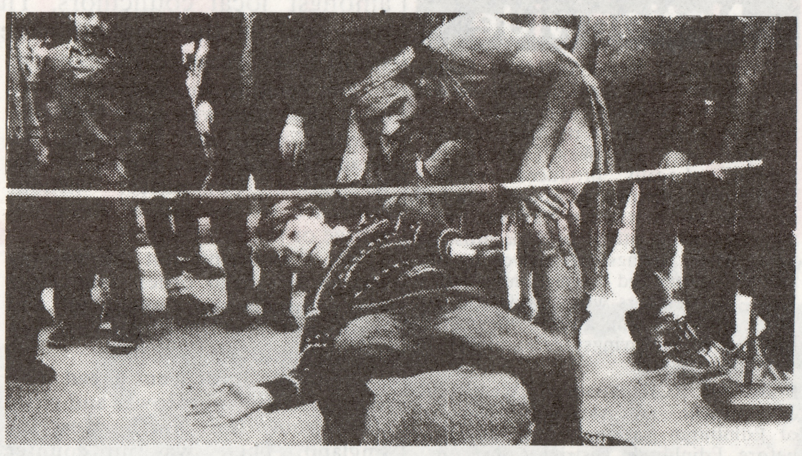
Not content with robbing Mrs. Eileen McCabe, the Blacks repeatedly picked up her baby, Gemma, in her pushchair and dropped it on the pavement.

It is because of events such as these that young Whites have started to mobilise themselves in what they see as a war to defend the White community.

POLICE VICTIM

A FRACTURED skull and brain damage was inflicted on PC Ian Bennett after he was ambushed by White-hunting Blacks.

White children robbed of their heritage



(Top) *West Indian dance instructor, Hebrew Rawlings, in full savage regalia, showing a little White boy how to limbo dance at a Bradford infants "multicultural open day".* (Lower) *A multi-racial group of unemployed Birmingham school-leavers who have been formed into the Caribbean Connection Steel Band.*

UNDER the incompetent and subversive influence of 'Trendy-Lefty' teachers, an increasing number of British children are leaving school unable to read, write and do simple arithmetic.

Many White children leave school not only handicapped in the race for the few jobs that are available to them, but robbed of a knowledge of the culture and achievements of their race and nation.

The denial to British children of an awareness of their national heritage is being deliberately perpetrated by Left Wing multi-racialist teachers and youth leaders.

They believe that if British youngsters learn about the achievements of their forefathers they might become proud of being British and hence "racialist".

Yet these race renegades are desperate to foster self-esteem among Black and Asian children, and so they run special courses to promote alien culture forms.

White youngsters are involved in these alien activities so that their sense of cultural and national identity is confused, thereby rendering their minds more susceptible to multi-racialist brainwashing.

CHICAGO: BLACK CROOK BEATS NUTTY JEW

MINORITY ethnic pressure groups are now so highly organised in the United States that in last month's election for Mayor of Chicago neither Democratic nor Republican parties were able to field a candidate who was a member of the city's White Gentile majority.

The Republicans put forward Bernard Epton, a Zionist-Jew whose psychiatric problems regularly land him in the "funny farm".

The Democrats put forward Harold Washington, a Black lawyer who was jailed for repeated tax fiddles and debarred from the Illinois Supreme Court for swindling clients.

The Republicans nominated Epton because no other member of the party wanted to contest for an office which has been held by Democrats with rock-solid majorities for the past 50 years.

Harold Washington

Bernard Epton

The Democrats nominated Washington because he was able to turn out vast numbers of Blacks to support him in a 'primary'.

Most White people in Chicago regard the Blacks as a menace, so many of them deserted the Democratic ticket for Epton, who they naively perceived as "the White candidate".

The city's Blacks and Hispanics turned out solidly for Washington and, added to a small but crucial number of votes from young middle class Whites, he was able to scrape home with 657,000 against 617,000 for Epton.

On the basis of this election, it can only be a matter of time before the one-eyed Jewish Negro tap dancer Sammy Davis Jnr. becomes President of the United States.

Blacks face failure and stress in Britain

THE CRUELTY to Black people of the multi-racial experiment was unintentionally revealed in a scientific report published in March.

The report was produced by an American academic team headed by Yale University psychology professor Sandra Scarr, a leading authority on racial differences in education.

Her report was based on research conducted among more than 1,000 school children in an unspecified English Midlands town.

It showed that Blacks cannot cope with our educational system.

Results of non-verbal abstract reasoning tests (in which 'culture bias' factors such as language are virtually eliminated) showed that by the age of 12 Blacks' IQ actually *declined* by 4.6 points.

Only two per cent of Blacks got into "grammar" streams compared with 75 per cent of "middle class" Whites.

Sandra Scarr commented:

"The trouble starts when schools expect West Indian children to use more abstract reasoning and they have to go beyond what is literally there in a book to make inferences about what the author intends.

"By the age of 16 most Blacks are, for all practical purposes, already ineligible for higher education and professional training."

SCHIZOPHRENIA

It is cruel for White politicians to expect Black people to do well in a society which is not suited to their needs.

One of the side effects of such misconceived expectations was highlighted at a recent British Medical Association conference in Sheffield.

The conference – on "the health problems of ethnic minorities" – heard that a disproportionate number of Black people suffered from schizophrenia, a stress-related mental illness.

'Ethnic' voters bribed with ratepayers' cash

CORRUPTION is rampant in Town Halls throughout Britain as Councillors spend millions of pounds of public money on bribing the ever-growing 'ethnic minority' electorate.

Nottingham councillors making a big fuss about giving £68,500 to medical research after they gave £250,000 to a Black 'community centre' for 'Blues' parties and reggae concerts.

Originally the multi-racialists proclaimed that they only wanted a society in which all racial groups were treated equally.

But now that the Immigrant vote can swing elections in an increasing number of wards and constituencies, local government income – derived in the main from White rates and tax payers – is being showered on Black, Brown and Yellow voters in the name of "positive discrimination".

Nowhere is this better illustrated (outside the rotten boroughs of London) than in **Leeds**, West Yorkshire, and **Nottingham** in the East Midlands.

The near Marxist Labour majority on Leeds City Council has decided to 'twin' Leeds with a city in the Punjab, India, called Jullandur.

The reason? The Punjab is the homeland of the Sikhs and there are thousands of Sikh immigrants living in Leeds. More than 2,000 of these are former Jullandur residents.

£200,000 TEMPLE

Leeds Council Labour group leader George Mudie is to lead a Council delegation to Jullandur. This will cost Leeds ratepayers thousands of pounds.

Terrified of losing their share of the Sikh vote, the leaders of the Conservative and Liberal groups on Leeds Council have approved the twinning.

Leeds Council has also resolved to give £120,000 to assist the Sikh community build a temple in Chapeltown Road.

This is on top of £50,000 the Council has already given and £130,000 promised by the Manpower Services Commission.

Not to be outdone, leaders of the Leeds West Indian community asked for – and got – £200,000 for a Black community centre in Chapeltown.

NOTTINGHAM

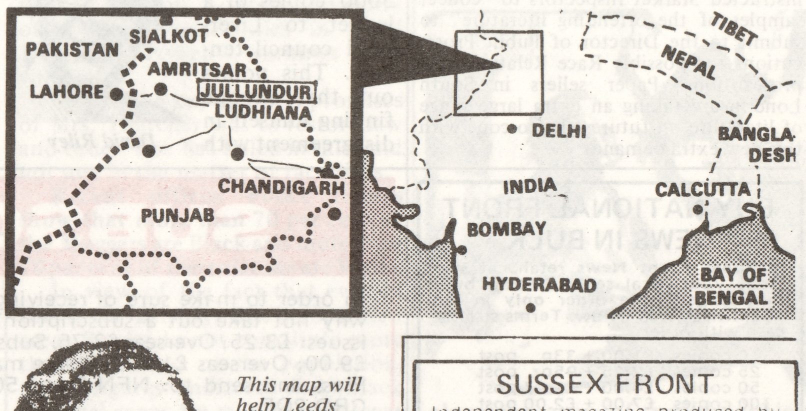
Two years ago the Nottingham City Hospital launched "The Care Appeal" fund in order to build a medical research centre.

This charity – which will benefit everybody – relied on private donations, including receipts from two Marathon runs which were each supported by 7,000 privately-sponsored amateur athletes, one of whom died.

In March this year Nottingham City Council made a big publicity event out of giving a cheque for £68,500 to "The Care Appeal".

The reason for this public relations hullabaloo was to offset publicity that the Council had donated £250,000 to a Black community centre.

The Black community in Nottingham have done precisely nothing to raise a penny towards this project, which will be for their sole benefit.



This map will help Leeds White folk find Jullandur in case they want to emigrate there. (Left): *Arch race renegade Cllr. George Mudie.*

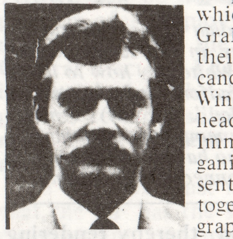
National Front ACTION Nationwide

● **SHEFFIELD, South Yorkshire, Friday 18th March:** 'Red Ken' Livingstone was greeted by a National Front picket when he went to Sheffield City Memorial Hall to speak on "The Way Forward For Labour". Locally produced anti-IRA leaflets were distributed outside the hall by some of the twenty National Front members, while others held placards and flags. When Livingstone arrived he was met with jeers and waving Union Jacks. Most NF members went inside the hall where they kept up a steady stream of heckling about Livingstone's support for the IRA's cause.

● **EDINBURGH, Scotland, Wednesday 30th March:** Grant Alexander, a member of Edinburgh National Front, appeared before Edinburgh District Court on a charge of "Breach of the Peace" for selling *National Front News* and *Bulldog* outside Hearts' Tynecastle football ground. Grant was arrested when he refused to move on, although in Court the arresting officer PC Ward agreed with the Defence Agent that people were entitled to sell "this kind of magazine". While he was found guilty, Grant Alexander only received an "admonishment" but intends to appeal against this, his first conviction. In the meantime he will be back outside Hearts' ground where ever-increasing numbers of fans are becoming regular readers of both *National Front News* and *Bulldog*.

● **SLOUGH, Buckinghamshire, Tuesday 8th March:** The well organised Slough Group of the National Front held their adoption meeting at which they adopted Graham Gillmore as their Parliamentary candidate for the Windsor and Maidenhead constituency. Immediately the Organiser, Tom Mundy, sent off press releases together with photographs to all local papers. As a result both the *Maidenhead Advertiser* and the *Windsor, Slough and Eton Express* carried full stories of the adoption meeting, a photograph of the candidate, his biographical details and a mention of the policies on which he will be standing. NF candidates are being adopted all across Britain. (Organisers! Make sure that your Branch is achieving the maximum possible publicity!)



● **SOUTHBOROUGH, Kent, Wednesday 13th April:** About fifty members of Kent National Front held a picket demonstration outside the Royal Victoria Hall, Southborough where Ken Livingstone was to speak in support of the Labour Party candidate in the local council elections. On seeing the flags and anti-IRA placards of the National Front, 'Red Ken's' car shot around to the tradesmen's entrance at the back of the building where he was smuggled in. Despite the fact that the meeting was a "public election meeting" most of the National Front members were refused admittance. However instead of going away the NF members stayed outside the hall for the whole length of the two hour meeting keeping up a barrage of singing and chanting which could be clearly heard inside the hall. Eventually Livingstone's car came out through the front gates of the building with 'Red Ken' cowering in the back seat with his coat pulled over his head. He was again met with jeering and chanting before speeding away back to London.

● **CARLISLE, Cumbria, Thursday 7th April:** The announcement of a new local National Front magazine for distribution in Cumbria has received substantial press coverage in the local paper, the *Evening News and Star.* The new magazine, *Standard Bearer,* will be aimed specifically at Cumbrians and will be available along with *National Front News* and *Bulldog* which are already sold in Carlisle City Centre and at Carlisle United's Brunton Park Ground. When asked about the effect of these sales by the *Evening News and Star,* the NF Organiser was quoted as saying: "We are finding that there is a steady rise in the number of people wanting to join us."

● **SOUTHWARK, South London, Friday 8th April:** Southwark Council are so worried by the success of NF paper sellers in the Borough that they have now instructed Market Inspectors to "collect samples of the offending literature" to submit to the Director of Public Prosecutions for possible Race Relations Act prosecutions. Paper sellers in South London are taking an extra large range of literature on future sales to cope with this new extra demand.

NFTU Rally boosts Blackburn Group

A RALLY of about 70 members of the North West of England NF Trade Union Association on 19th March caused a furore amongst local councillors. The rally against unemployment was held in the Council-owned Tower Rooms in Darwen, a small town close to Blackburn.

The decision to allow the NF to book the room was made by Councillors Colling and Robinson, the Chairman and Vice-Chairman of the Recreation Committee, without reference to the rest of the Committee or the full Council.

On discovering that the meeting was to go ahead other councillors called the decision "appalling" and demanded a full Council meeting to discuss the affair.

The rally itself went ahead with delegates from most towns and cities throughout the North West of England. There was no counter demonstration.

Two councillors who asked to come into the hall were freely allowed to inspect the book stall and were invited to listen to the speeches – however this they declined.

The rally was chaired by Bob Hayes of Accrington. Other speakers were Graham Williamson from Blackpool, David Riley, Chairman of the NFTU, Ian Anderson, NF Deputy Chairman and Andrew Brons, NF Chairman.

POTENTIAL SUPPORT

As a result of publicity before the rally a small group of people from Blackburn attended the rally, one or two joining up on the spot.

Because of the potential support they talked of in Blackburn, a meeting to re-form the Blackburn Group was arranged for a date three weeks later.

More than 40 people attended this inaugural meeting, many of them new members. Already paper sales and leafletting have been started on a regular basis.

Whether or not the Council allows the NF to hire halls in future the National Front has received a substantial boost in this area. There will be a National Front candidate in Blackburn whenever the General Election is called.

Save the Horwich Works!

ON Friday 18th March a group of National Front members distributed leaflets and sold papers outside the British Rail Engineering Works at Horwich, Lancashire, which is threatened with closure.

The leaflets, produced by the National Front Trade Union Association, explained to the workforce that the threatened closure of the Horwich works is just one step in the deliberate destruction of Britain's railways by successive governments.

They also pointed out that while British Rail is throwing British engineering workers onto the dole they have recently bought over thirty Class 56 railway engines from Roumania.

The British Rail works in Horwich is the town's biggest employer and its closure would be a disaster for all the people who live in that area.

Almost all the workers who were changing shifts accepted a leaflet and quite a few, after reading it, came back to buy copies of *NF News.*

SCREWDRIVER, The Ovalteenies and Peter and the Wolves were the three bands which played at a very successful 'Rock Against Communism' gig in East London on Saturday, 2nd April.

The audience of more than 400 young people had a great evening listening and dancing to patriotic and racialist rock music.

The atmosphere was electric but good natured. Coach loads of Police lurked outside but found no excuse to interfere.

N.F. FIGHTS FOR TENANTS' RIGHTS IN LIVERPOOL

LIVERPOOL City Council recently introduced a policy of evicting any White tenants who are "found guilty of racial harassment" – not by a judicial Court but by a 'kangaroo court' of politically inspired councillors.

In a campaign to defend the White tenants from this type of race relations bullying the North West Region of the National Front has distributed 5000 copies of a leaflet to Liverpool council tenants. This points out that anyone finding himself in disagreement with a coloured neighbour could find themselves evicted for alleged racial harassment.

David Riley

The leaflet goes on to offer "all the help and advice to find lawyers to defend those being victimised."

This National Front defence of basic human rights has caused Labour, Conservative and Liberal parties on Liverpool Council to combine to defend their monstrous policy. They called a special joint meeting in order to produce a leaflet denouncing the NF campaign.

The author of the National Front leaflet is David Riley, North West of England Organiser, who last year was sentenced to four concurrent six month jail sentences, for issuing leaflets in defence of White residents' rights.

N.F. CANDIDATE TO STAND IN TOTTENHAM G.L.C. BY-ELECTION

A MEETING to adopt Mr. John Donegan as the National Front candidate for the Tottenham GLC by-election was held at the Lordship pub in Wood Green on Wednesday, 30th March.

In his speech John Donegan, a member of Islington NF, spoke of the corruption of the GLC and his commitment to fight for the rights of White people.

The meeting raised a collection of £160 towards the cost of the campaign which will involve the distribution of 30,000 election addresses by hand (there is no free postal service for GLC elections), plus postering and louspeakering.

There will also be a public meeting before polling day, which is on 5th May. Tottenham is a multi-racial disaster area and all London and Home Counties members are urged to support John Donegan's courageous campaign.

Out of the four candidates John Donegan will be the only one to demand that White people be put first in housing, jobs, education and welfare.

This is an opportunity to show the voters of Tottenham that the National Front is the only party which offers them the hope of a decent future for their country and for their children.

STRONGER RACE LAW DEMAND

A RECENT Institute of Jewish Affairs report demands "stronger and more frequent action" against "antisemitism, racism and right-wing extremism."

Mr. Michael May, head of the IJA's Research and Documentation Unit on International Antisemitism, bemoans the fact that "the potential of the current law is not being fully utilised."

He then describes how European Governments are strengthening the laws against racialist groups.

He particularly gloats over the German proposal to render illegal any statement or act which can be construed as a "denial of the Holocaust" or "making it appear harmless."

But the country he admires most is Austria where a "Law on the Suppression of Certain Acts Prompted by Racism or Xenophobia" was adopted on 30th July, 1981.

This renders it illegal to belong to any group which practises or advocates racial discrimination or segregation!

In Britain he cites the two organisations which are chiefly responsible for referring cases to the Attorney General for Race Act prosecutions: the Commission for Racial Equality (formerly known as the Race Relations Board) and the Board of Deputies of British Jews.

Describing the clamp-down on "racist" organisations he lists the legal and administrative actions taken during 1981.

These included 26 march bans, numerous bans by local councils of meetings in public halls, and the conviction of 39 individuals belonging to "right-wing" organisations.

Finally he reports that the Government intends to review the law which bans the publication and distribution of racialist literature because of the difficulties in achieving successful prosecutions.
